DETAILED ACTION

1. Acknowledgment is made in receipt of the amendment filed January 20, 2005.

Allowable Subject Matter

2. Claims 5-7 and 10-11 are allowed.
3. The following is an examiner's statement of reasons for allowance: the prior art of record fails to anticipate or render obvious a dual circuit pilot master cylinder that is vertically oriented having a crank fulcrum with a pivoted crank located at a top portion of the cylinder housing and a pump fulcrum with a pivoted lever located at a bottom portion of the cylinder housing, and wherein a push rod is oriented along the housing, from the top portion to the bottom portion, and connects a first end of the pivoted crank with a first end of the pivoted lever.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Seethaler, Kershner and Davis each teach a dual circuit master cylinder.
5. Any inquiries concerning this communication or earlier communications from the examiner should be directed to Thomas Williams whose telephone number is (703) 305-1346 (after April 2005 the new telephone number will be 571-272-7128). The examiner can normally be reached on Monday-Thursday from 6:30 AM to 4:00 PM. The examiner can also be reached on alternate Fridays.
